DETAILED ACTION

1. The indicated allowability of claims 1, 5, 7, 11 and 12 is withdrawn in view of the newly discovered reference(s) to Cawley 6,504,093. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 5, 7, 11 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Cawley 6,504,093.

Regarding claim 1, Cawley '093 discloses a vehicle floor (14) comprising a unitary, one-piece panel formed with an integral channel for routing a vehicle distribution system conduit at least partially within said channel, wherein the vehicle distribution system is selected from the group consisting of electrical , hydraulic and ventilation and wherein the panel includes an inner panel portion and an outer panel portion, and wherein the panel is sufficiently bendable between the inner panel portion and the outer panel portion to at least partially enclose and further define the channel therefore in Figure 2.

Regarding claim 5, Cawley '093 discloses the vehicle floor (14), wherein at least one of the inner panel portion and the outer panel portion at least partially defines an opening for said routing of the vehicle distribution system conduit within said channel.

Art Unit: 3612

Regarding claim 7, Cawley '093 discloses the vehicle floor (14), wherein the inner panel portion includes a substantially flat portion.

Regarding claim 11, Cawley '093 discloses the vehicle floor (14). Even though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production.

Regarding claim 12, Cawley '093 discloses the vehicle floor (14), wherein the panel is comprised of a non-metal material.

Allowable Subject Matter

4. Claim 20 is allowed.

5. Claims 3, 4, 6, 8-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
